- The average American debt is \$33,000 Student Loan Debt has surpassed \$1.1 TRILLION dollars
- Of 120 million Americans that attend college 60% have student loans

Federal Student Loan Consolidation Program

What is consolidation?

Debt consolidation entails taking out one loan to pay off many others

Why consolidate?

Consolidation Loans allow borrowers to combine one or more of their Federal Student Loans into a new loan that offers several advantages

One Lender and One Monthly Payment

Having one loan and one monthly payment is typically much easier for the client to manage their student loan debt. The US Department of Education is the one lender for all loans included in a Direct Consolidation Loan.

Repayment Options

Borrowers can choose from multiple repayment plans with various term selections to repay their consolidation loan(S), including Income Based Repayment (IBR); Income Contingent Repayment (ICR); or Pay as Your Earn (PAYE). These repayment plans are designed to be flexible to meet the different and changing needs of the borrowers. With a consolidation loan, borrowers can switch repayment plans at any time. If your client selects the IBR Plan or the PAYE Plan and want to change at a later date, their only option will be the Standard Repayment Plan

No Minimum or Maximum Loan Amounts

There is no minimum amount of debt required to qualify for a Direct Consolidation Loan.

Reduced Monthly Payments

A consolidation loan may ease the strain on a borrower's budget by lowering the borrower's overall monthly payment. The minimum payment on a consolidation loan may be lower than the combined payments on a borrower's Federal Education Loans.
