EVERYTHING'S INCLUDED[®]

†Estimated savings is based upon RESNET-approved software using assumptions about annual energy use solely from the heating and cooling systems, appliances and lighting that are included as standard with the home, and local energy utility rates available at the time the estimate is calculated. For more details on estimated electric bill savings, visit <http://www.resnet.us>. Energy calculations and claims are estimates only and were developed by third parties based upon the design of the home and the HERS Index and not specific testing of an individual home. Savings will vary due to actual construction, floor plan, occupancy, appliance usage, thermostat settings, weather conditions and orientation of the home. Seller provides no guarantee of savings that will be achieved by each homeowner.
