#### ABOUT THE BRONZE

The Bronze floor plan would certainly take home gold for design! This ranch-style home centers around an open layout with a dining area, a kitchen with a center island, and a great room with center-meet doors leading to the covered patio. The master suite is adjacent, and showcases a generous walk-in closet and a private bath. Two bedrooms and a second bath complete the residence – which also includes an attached RV garage! Personalize the Bronze plan with an extended covered patio, or opt for a study in place of a third bedroom.

\*This information is presented for education purposes only. The HERS index for a confirmed rating will be determined by a third party HERS rater based on data gathered from on-site observations and, if required, testing of rated systems for a home as featured, equipped, located, oriented and/or built.

\*Standard new home is based on the RESNET® Reference Home, consistent with a HERS index of 100 (based on the 2006 International Energy Conservation Code).

\*A typical new home is based on the U.S. Department of Energy definition with a HERS index of 130.

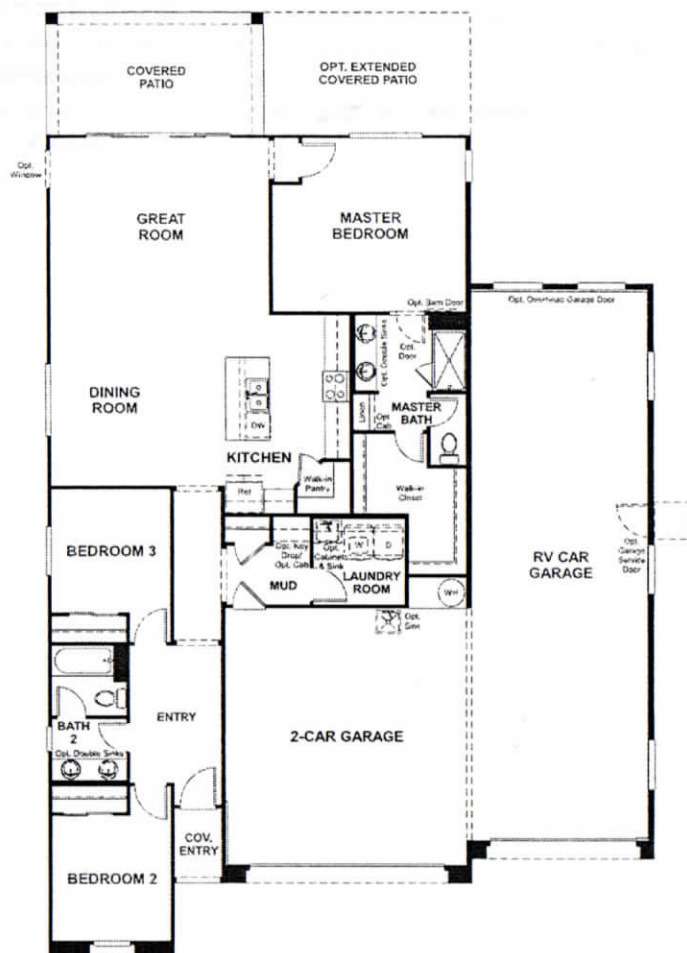

\*RESNET® has developed the HERS index to indicate the comparative efficiency of homes. It is no guarantee that energy efficiency will be achieved.

Plans, photos and renderings are conceptual drawings and may vary from actual homes as built. Options and features may not be available on all homes and are subject to change without notice. Actual homes may vary from photos and/or drawings which show suggested landscaping and may not represent the lowest priced homes in the community. Features may include optional upgrades and may not be available on all homes. Square footage numbers are approximate and are subject to change without notice. How does this floor plan rate?

Take a look: 100 = Standard new home\* 130 = Typical resale Home\*\*

The lower number, the better! Refer to the RESNET® HERS index brochure or go to [www.RESNET.us](http://www.RESNET.us) and [www.HERSindex.com](http://www.HERSindex.com)

What's a HERS® Index? HERS stands for Home Energy Rating System, a system created by RESNET® to measure home energy efficiency.\*

A Projected HERS index or rating is a computer simulation performed prior to construction by a third-party HERS rater using RESNET-accredited rating software, rated feature and specification data derived from home plans, features and specifications, and other data selected or assumed by the rater. The projected HERS index is approximate and is subject to change without notice. Actual results will vary.
